FINE WINE IS ONLY PART of what makes a famous wine region, and Walla Walla's food scene is legit—seriously robust rather than “good for a small town.” Make reservations where they're accepted; if Walla Walla was ever a hidden gem, those days have long passed.

Kitchen at Abeja

Three evenings a week, the bucolic winery and inn turns its tasting room into a fine dining restaurant, serving seven-course seasonal menus from veteran Walla Walla chef Jake Crenshaw, with luxe ingredients like king salmon, kobe steak, and black summer truffles shaved over decadent agnolotti. In this idyllic setting, dinner is designed to unwind at a leisurely pace—and with help from Abeja's wine, by the pairing, bottle, or glass.
